A Series on the EU Digital Services Act: Tackling Illegal Content Online | Center for Democracy and Technology

By Asha Allen and Ophélie Stockhem
August 2, 2022

With the CDT Europe "Digital Services Act Series", we take a deep dive into the recently adopted EU Digital Services Act, the bloc's flagship online platforms governance Regulation. We break down key obligations, reflect on the potential impact of the legislation and pose recommendations towards the next steps in bringing the legislation to life. We hope that this series provides a more comprehensive understanding of the DSA and its implications and will support future analysis as the European Commission takes steps to supplement and implement the legislation.
