The AI Medicine Cabinet | The Internet Health Report 2022

By Mozilla

September 15, 2022

Life, death and data. AI's capacity to support research on human health is real. But so are the harms of biased datasets and misdiagnoses. How can AI developers build healthier systems? We take a look at a new dataset for Black skin health, a Covid chatbot in Rwanda, AI diagnostics in rural India, and more.

[…]
